

NEWS HEADLINES

- ❖ **Ghana Secures \$30 Million Grant for Forest Conservation:** The Government of Ghana has signed a Letter of Intent with the Government of the United Arab Emirates (UAE) for a grant of \$30 million. The grant will provide additional and alternative livelihood support to forest fringe communities as an incentive for them to engage in enhanced forest protection, forest restoration and reforestation. This forms part of efforts by the government to achieve the biodiversity and climate objectives under the Resilient Ghana Package launched at COP28 in Dubai, last year. The Minister for Lands and Natural Resources, Mr Samuel Abu Jinapor, who signed on behalf of Ghana last Friday, reiterated the government’s commitment to developing strategies to restore habitats, protect endangered species and promote resilient ecosystems. (Norvanreports)
- ❖ **IES Predicts Stable Diesel and Petrol Prices, Potential 2% Increase in LPG in First-Window of October:** The Institute for Energy Security (IES) says it anticipates stable prices for diesel and petrol at the pumps but predicts a possible increase of about 2% for Liquefied Petroleum Gas (LPG) in the first-pricing window of the month of October. The forecast according to the IES is due to the mixed reactions in the international fuel market during the closing weeks of September as diesel and LPG recorded price hikes of approximately 1.5% and 3.83%, respectively, while petrol experienced a decline in price. Additionally, the cedi has seen a marginal depreciation against the U.S. dollar, trading about 0.49% lower than its counterparts at GHS 15.63. (Norvanreports)
